Cowspiracy: The Sustainability Secret co-creator Kip Andersen's environmental awakening came as a result of **An Inconvenient Truth**. After seeing the film, he began to recycle religiously, turn off lights constantly, shower infrequently, and ride a bike instead of driving. Andersen believed he was doing everything he could to help the planet by following the guidelines of national and international environmental organizations, but his life took a different direction when he found out animal agriculture is the leading cause of environmental destruction. He is the founder of **AUM Films & Media**, a non-profit focused on creating films and media that promote thrivability, compassion, and harmony for all life. He is also an entrepreneur, as well as a certified Jivamukti and Kundalini yoga teacher.
We are delighted to welcome Kip to **Freedom Summits** 2015
